## A) Sys test resign
================================================
    1. unzip attachment.ipa

    2. //Change infp.plist to match application identifier
/usr/libexec/PlistBuddy Payload/VisaEurope.app/Info.plist
        Set :CFBundleIdentifier 37Q87KVY9L.com.aib.p2p.*
        save
        quit

    3.  cp iOSTeam_Provisioning_Profile_comaibp2p.mobileprovision
Payload/VisaEurope.app/embedded.mobileprovision  // Testing team

    4. /usr/bin/codesign -f -s "iPhone Developer: Denver Corrigan
(J92MY45J3C)" Payload/VisaEurope.app/  --entitlements
enterprise.plist --preserve-metadata=resource-rules,requirements
// For testing

    5. zip -r Aib_resigned_deve_profile.ipa Payload/

## B) Production IPA Release
===========================================================

    1. unzip attachment.ipa

    2. //Change infp.plist to match application identifier
  /usr/libexec/PlistBuddy Payload/VisaEurope.app/Info.plist
        Set :CFBundleIdentifier com.aib.p2p.production
        save
        quit
    3.  cp Me2U_Distribution_Profile.mobileprovision
Payload/VisaEurope.app/embedded.mobileprovision // For prodcution

    4.  /usr/bin/codesign -f -s "iPhone Distribution: Allied
Irish Banks, Public Limited Company (37Q87KVY9L)"
Payload/VisaEurope.app/  --entitlements enterprise.plist --
preserve-metadata=resource-rules,requirements

    5.  zip -r Aib_resigned_Prof_profile.ipa Payload/

After step2

```
==================
Copy Icons file in Visaeurop.app/folder

And modify info.plist to include icons files
key>CFBundleIconFiles</key>
            <array>
                <string>Icon-80</string>
                <string>Icon-120</string>
                <string>Icon-Small</string>
                <string>Icon.png</string>
                <string>Icon@2x.png</string>
                <string>Icon-72.png</string>
            </array>
================================================================
